- III. Open Forum
  - a. ISU President Steven Leath
    - i. Good evening, fun to be here, thanks to GPSS for inviting. He has been meeting as many student groups as possible over the last 8 weeks.
    - ii. Has been in ISU for 8 weeks, he took the job at end of September, has had a good transition process with President Geoffrey. There is still a tremendous amount to learn, tough budget year; however everyday getting better, ISU is poised to make great progress. Meeting with Regents went very good.
    - iii. Initial impressions and then open to questions.
    - iv. Trying to spend as much time as possible in campus; different work demands, fundraising etc. Just coming to GPSS from a Greek event, trying to spend more time with various student groups.
    - v. He was very impressed with the GPSS exec when they first interacted during his selection process; he has high regard for the concept of serious shared governing.

# IOWA STATE UNIVERSITY

## Graduate & Professional Student Senate

- 45 vi. He wants to grow the graduate student population from the current ~ 2000  
46 number to ~ 5000, and he has some ideas to do that which are under  
47 development currently.
- 48 vii. He has open-door communication policy with the different leadership  
49 bodies, his office answers within usually a day. He is still learning the  
50 culture and the people of ISU, and is yet to form the top agenda. Some major  
51 topics include the student debt, research dollars – public vs. private, etc. He  
52 encourages GPSS to state their ideas and concerns.
- 53 viii. This is also the 1<sup>st</sup> year when the board of regents has asked university  
54 presidents to be advocates for university policy; he left the last meetings  
55 with a very positive frame of mind. The tuitions will not be raised hopefully  
56 next year.
- 57 ix. He has done very little travel so far inside the state of IA. He is very well  
58 conversant with the Des Moines/Ames area; but he wants to soon reach out  
59 to the rest of the state in aiming to build a stronger base and facilitate the  
60 next level of learning and engagement.
- 61 x. The university is making some changes – they are actively looking for a new  
62 provost, also a new fundraising head. ISU is looking towards a new  
63 management model – similar to a more traditional/political chief of staff  
64 model. He is aiming to surround himself with different people from different  
65 backgrounds and different skill sets; over the next 2 months, the senior team  
66 will be formed and more specifics will be announced.
- 67 xi. Open to questions:
- 68 1. Senator Yeninas – raised the topic of different programs being on the  
69 chopping block, major issues related to money and low enrollment in  
70 the other 2 big universities in IA – what are your thoughts on that?  
71 Any chance of something similar happening in ISU?
- 72 a. WHAT happened in UNI related to chopping programs was  
73 an unfortunate event; however there are always 2 sides to  
74 every story. UNI President Benjamin Allen is a good  
75 administrator, he has been trying to make lots of changes to  
76 avoid these types of cuts, there were different unions also  
77 opposing, thus now he needs more cuts to meet ends. He  
78 understands the challenges with low enrolling programs, but  
79 he cannot comment of the other programs as he was himself  
80 not part of the analysis - maybe ISU and other big colleges  
81 could be more focused in stem programs.
- 82 b. Chances of something similar happening in ISU - Right now  
83 the answer is NO, President Greg and his team have made  
84 very difficult decisions for the progress of the university and  
85 have summarized them all for the new administration which  
86 he is going through currently. ISU constantly monitors low

# IOWA STATE UNIVERSITY

## Graduate & Professional Student Senate

87 enrollments programs and looks at reducing duplicity. ISU  
88 has a much better and more trusted shared governing program  
89 than other universities, so the faculty senate and staff senate  
90 all have their inputs before any drastic measures are adopted.  
91 He meets and will continue to meet with the leadership  
92 regularly; there won't be any nasty surprises.

93 2. Treasurer Gross – thoughts on the Resource Management Model  
94 (RMM)? President Leath has studied a lot different models, and had  
95 several budget meetings about RMM. There is a draft report – it's a  
96 review of the RMM for the last 3years. ISU is growing at a very fast  
97 rate, next year the enrollment might increase to around 31,000. He  
98 would not mind if the enrolment does slow down a little bit;  
99 currently the RMM regards undergraduate numbers more  
100 successfully than graduate student numbers. Also the Alumni  
101 Association, the Reiman institution, university museums, research  
102 colleges, vet med have a disadvantage under the RMM model. A lot  
103 of discussion is needs and is underway to decide the importance of  
104 different programs; he is looking forward to grow the UG numbers,  
105 but also wants to move resource elsewhere where they will do more  
106 benefit to the university.

107 3. Senator Dalluge – what are your thoughts on private vs. public  
108 funding for research? Intellectual property clashes? President Leath  
109 believes in the coexistence of both public and private funds for  
110 research activities, looking at ways to maybe double the private  
111 source. He understands that there might be some worries that if the  
112 private research funds are very high, the academic integrity might get  
113 hampered. However he realizes that there should be a joint push for  
114 full IP rights. The current landscape is changing rapidly; we didn't  
115 take share in spinoff options before, there will be more push for  
116 transparency. Now, the companies are more and more interested in  
117 university partnership, and the timing is perfect for us. Instead of  
118 companies looking to just give out lump sum amount of research  
119 money, we will be looking for partners carefully who are more  
120 involved in the research process with exchange of ideas and  
121 resources.

122 4. (Sub for) Senator Hauser – the last few major buildings built on the  
123 campus are mainly non-classroom focused, the history department  
124 classroom scheduling is all over the campus, leads to lots of  
125 problems. Why is the current focus more on building research space  
126 rather than classrooms?? THE driver is that in the current down  
127 economic times, it is easier to find research partners, new groups  
128 who are willing to fund new basketball complex, football training

# IOWA STATE UNIVERSITY

## Graduate & Professional Student Senate

- 129 resources - easier to stimulate private partnership. But he is looking  
130 into various avenues to increase classroom spaces, still inventorying  
131 space now, converting some existing spaces to classrooms is on the  
132 table, top requirements are currently being prioritized. More help  
133 will come from a change in economy, also trying to get some donors  
134 to step up.
- 135 5. Senator Haroldson – any comment on the ISU-AgriSol issue? The  
136 collaboration with AgriSol bought a lot of negative attention to the  
137 Tanzania project, as compared to a similar project for Uganda. ISU  
138 got a black eye for it, we withdrew project support in Tanzania, and  
139 this was unfortunate since we provided clean water and housing to  
140 people there. Why we entered the project was clean and justified,  
141 however much of energy and time were directed at countering  
142 misrepresentations about why and how we were involved. We are  
143 going through new processes to deciding a new measure of the value  
144 index.
- 145 6. Senator Russell – what are the big items on the initial priorities list?
- 146 a. Work on comprehensive package to reduce student debt.
  - 147 b. Try to get bigger appropriation,
  - 148 c. Increase overall efficiency
  - 149 d. Reduce text book costs, increase private money flow.
  - 150 e. Grow research, more focused towards the responsibility to  
151 citizens and tax payers’ money etc. The overall arching  
152 demand should reflect demands of state.
  - 153 f. Add more value to degree, foster a strong sense of worth,  
154 getting faculty and staff to push more for national levels  
155 works.
- 156 7. Vice President Fateh – what are your ideas to increase graduate  
157 student population? AS an university , we have an obligation to train  
158 students, currently there is a shortage of opportunities, for professors,  
159 it is easier to hire post docs rather than graduate students, as they  
160 could get more value from post docs than graduate students. We are  
161 aiming to create a good balance between the 2, put some measures in  
162 place to incentivize graduate student hiring; for e.g. requiring good  
163 mentoring skills for promoting tenure.
- 164 IV. Senate Forum
- 165 a. OPEN
- 166 V. Remarks and Reports

- 189 iv. She is a part of the Veishea advisory committee; there was a question in the  
190 previous meetings about long lines for lunch in the central campus and food  
191 running out. She clarified this issue with the VEISHEA committee, there  
192 must have been some miscommunication, as they arrange for food for  
193 around 2000 people, and they claimed not to be having run out of food for  
194 last 3 years. They have an excellent mobile version of website, one could  
195 buy tickets and check schedule from cell phones.

300                   other funding sources? THIS is just the 2<sup>nd</sup> year this event is being  
301                   held, last year, we got money from ticket sales. If we get funding this

- 302 year, there will not be any need for selling tickets and the event can  
303 be made free and open to all.
- 304 3. Senator Kleinheksel – in order to maintain parity with the way we  
305 fund other student organizations, he would like to amend to reduce  
306 funding – cut food item worth \$400.
- 307 a. Senator White – why are we being harsh now?  
308 b. Treasurer Gross – point of clarification – there are no

311 d. Se  
312 e. Senator Kleinheksel - explained that for all other student

314 at less than 50%, just trying to be fair to other student  
315 organizations.  
316 f. Treasurer Gross – just to inform the senate that all of the  
317 pizza events this year and last year were fully funded by the  
318 special allocations.  
319 g. Senator Yeninas – did you go to any other funding source?

345 serving GPSS, and welcomes any feedback from the  
346 senate about the direction of GPSS. Has been working  
347 closely with President Smith, also been part of the  
348 rules and finance committees. Also been a part of the  
349 selection of new provost.

350 ii. Questions:

351 1. Senator Tucker – what do you think to be the  
352 best way to deal with the special allocations  
353 process? WE are allocating student funds, and  
354 it should be done wisely. If we are cutting  
355 funding for other organizations, he feels the  
356 special allocation process should meet the  
357 same standards; it should follow the same  
358 scrutiny.

359 2. Senator Perrine – any difference between  
360 pizza and financial seminar.

361 3. Senator Deleon – currently we have the  
362 problem of meeting quorum in some meetings,  
363 coz of not enough number of senators turning  
364 up for the meetings. What are your thoughts  
365 on this? EVERY year, there have been some  
366 bills or proposals to reduce the size of the  
367 senate so as to make the attendance ratio high;  
368 this last year was an exception. He will be  
369 looking into this issue and also discussing with  
370 the new exec so as to how to deal with this  
371 issue.

372 4. CIO Sarkar – point of clarification – as of  
373 now, we have 1 senator for every 50 graduate  
374 students, and 1 more for each 50 or part  
375 thereof, with a maximum of 5 senators per  
376 department. Each department gets a minimum  
377 of 1 senate seat representation.

378 iii. Senator Kleinheksel asked to leave the room, floor  
379 open for discussion.

380 iv. Vice President Fateh – she endorses Cory, he has been  
381 actively involved in the rules committee, has great  
382 knowledge of senate proceedings and is a great  
383 candidate.

384 v. President Smith – she endorses Cory, being the  
385 president he can manage the overall workings of the  
386 GPSS, but will not be directly in charge of the money,  
387 which is decided by the senate. So “don’t worry about  
388 him saying no to special allocations”. He is great  
389 candidate.

390 vi. Senator Peters – Cory was in the finance committee  
391 also previously, she was impressed by him, he is  
392 clear-headed, good candidate.

393 vii. VOTE:
