Meeting Notes
February 23rd, 2015

7:02 Called to order
7:03 Quorum (barely) met
7:04 UC approve January minutes
7:07 Add Policy Library, Library Dean search, Finance Committee to senate forum
7:08 UC approve move Open Forum first
7:09 Remove Senate Bill S15-05 from agenda
7:09 Roberta Johnson - Director of student financial aid
- New student loan education office
- Other slides attached
- Cost of attendance $9,172 / $22,096
- Loan rates currently 6.21%, interest does accrue
- Interested in being the advisor to GPSS - Benefit to Graduate students is having a direct report to administration and many years of experience at the university
7:19 GSB President Candidates Dan and Amanda
- Dan - Junior in Business and GSB Vice Speaker - Campaign "No BS" - we have many projects for students and focus on student issues - we do have ideas - We enjoyed Veishea in the past and want to bring it back even bigger - Campus is over crowded - Panda and Subway lines are too long in the MU - I want to see what students want and I want to do something about it - Add outlets to the tables in the library - All student orgs are created equal - Worked with IRHA to rewrite den housing policies - You name an issue, we have thought it already - We have a survey to discover student issues and priorities - Bike Share has no opinions on it
- Amanda is working with transportation committee to determine the best route forward for the Bike Share and are involving students through comments and on professional experiences.
7:28
- Amanda - Add/Drop fees, make the process easier online and remove the fee - Recycling throughout Ames and ISU, including helping Ames with their current program - Can collection spots at the Tailgate lots for student org funding - Veishea priority is safety and making it honor the university, move to the fall - Closer communication with student organization presidents, e.g. GPSS's GPSRC.
7:31
- Amanda - Met with registrar to make sure their plan was implementable. Cost cut to students. Move everything online. Also includes transcripts for life at no cost. Minimize the fees too
7:34
- Amanda - Combine GSB funding accounts to maximize funding available to student organizations. More students enable more funds for more groups
- Dan - If students aren't getting the funding they need, then we will work to get the funds they need and deserve. I won't use GSB funds to fund my projects.
- Dan - Open to discuss the GSB / GPSS funding split
- Dan - Dr. Hill has a committee to help student orgs to host a spring event during the traditional VEISHEA time frame. VEISHEA being a celebration of the university. This will happen even if not the President.
- Amanda - Worried that without VEISHEA too long then may loose the knowledge and experience that had formed VEISHEA in the past. April has concerns with safety, so a survey of events going on led us to the fall where fewer events were happening and could be more of a student showcase

7:41
- Amanda - CyRide has done so much to improve their system and we support CyRide as much as possible. Don't want to cut CyRide services. Almost all graduate students are off campus that CyRide is very important. We are part of the Ames community.
- Dan - Talk with the City of Ames so that student are aware of housing opportunities. More communication of what is available will bring prices down. All for working for something including encouraging developers to build more apartments. CyRide is important to Ames. Efficiency is a priority. Deal with what we already have to meet our needs. Both issues I want to work on.

SO S15-01 Roberta Johnson as the GPSS Advisor
Motion to consider as read, UC
Passes

SB S15-01 Funding the GPSS Spring Social, $1230 from surplus
Funds not available from the GPSRC budget
Why $1230? Perfect Games estimate to serve 150 students pizza, soda, and bowing. Planned for a day not conflicting with any GPSRC speakers
Pizza social at Mother's Pub in February was allocated from a different funding source
GPSRC budget originally was planned to fund the social, but they forgot to plan for it. Spring Social now needs to be funded separately. GPSRC budget is not available and will be provided in the future. This bill is not to overspend on the conference, this is just a budget issue where money from colleges has not been deposited yet and unable to commit money to the social planning at this time. This would leave about $3900 remaining in Surplus

Called to Question

Passed

SB S15-02 Revising the Constitution

Friendly amendments

- Senators must represent their own department or program
- Added GPSRC chair executive council member
- Each senator must serve one office hour per month
- President must serve on the Grad College Council
- URLA must serve on the Student Affairs RMM advisory committee
- Establish a social committee chaired by the VP
- Merged Elections and Operations committees

Amendment to add income and expense reporting responsibilities to GPSRC Chair

How would Exec's monitor Senator's attending their own office hours? It would be difficult or impossible to monitor.

Propose that the future GPSRC chair be funded out of the GPSRC budget

Called to Question

Passed

SB S15-03 Revising the ByLaws

Changes
- Merged Elections and Operations committees
- Modified the meeting order and reports
- Making the Allocation policies a governing document of GPSS
- Elaborate / clarified how to conduct GPSS Elections

Called to Question

Passed

SB S15-04 Revising the Standing Rules

Changes
Meetings moved earlier to 6:30pm from 7pm
- Bills due 12 days in advance rather than 10
Maybe 30 minutes earlier could help people
Called to Question
Passed

SB S15-06 Increase regular allocations to $1000
Will this allow for fewer to be funded more at the detriment of funding fewer groups? It is a constraint, but data supports that no student groups will be denied.
Maybe this shouldn't occur in the middle of the year?
Maybe this shouldn't be increased so much so quickly, maybe $900 would be safer?
Amendment to $900 fails to be seconded
Called to Question
Passed

SB S15-07 Next year's budget
Friendly amendments
Increases
- PAG
- Allocations
- Socials
- Speakers
- Special Allocation increase (if the new exec position is created)

Graduate-Professional Student Loans

We urge you to sponsor and support legislation that would:

- REUNIFY the graduate and undergraduate loan rates to reverse current inequalities
- REINSTATE the in-school interest subsidy for graduate-professional student loans

The average cumulative debt for a Master’s is $57,000 and is $75,000 for a doctoral degree. This figure increases to $146,000 for a professional degree, which is more than four times the average undergraduate debt load (approx. $29,000). [1]

Reunify Loan Rates

- Earning a Ph.D. takes an average of 7.7 years [2]. Compounding interest from unsubsidized loans further swells the debt load, increasing monthly loan payments by $203 for students taking out the maximum Stafford Loan amount.
- According to Congressional Budget Office projections, savings associated with the removal of the in-school interest subsidy will result in an increase of $18.1 billion in the debt burden of graduate-professional students over 10 years. [3]

Why This Matters

- Federal investment in doctoral education fills a critical gap that neither states nor industry can fill. [4]
- Grad/Prof are 3x less likely to default on student loans [5]
- Graduate Instructors help keep undergraduate education affordable
- The graduate-professional student default rate is significantly lower (6.4%) than the overall default rate (18.4%), [5] making graduate-professional student loans the safest investment of all student loans.
- The high cost of student loans prohibits graduate and professional students from being active participants in our struggling economy, preventing them from buying homes and starting small businesses.
- The high cost of student loans makes postgraduate education cost prohibitive and will prevent the best and brightest from pursuing graduate or professional degrees.
- Jobs requiring advanced degrees are expected to grow by at least 20% by 2020. [6]

Funding Graduate Education
An Investment in the Future

We urge you to support legislation that would:
- Increase funding to federal research agencies to reverse the damage from budget caps and sequestration cuts
- Reinstate and ensure future political science research funding through the NSF
- Restore funding for the Javits and GAANN fellowship programs to $39 million

The Benefits of Science, Technology, Engineering and Math Funding (STEM)
- 53% of basic academic science research in the United States is funded through the federal government [2]
- Grants from NSF supported about 150,000 researchers, including graduate and undergraduate students in FY 2010 [3]
- More than 80,000 patents were generated from NSF funded research from 2000 to 2009 [3]
- STEM fields are critical to reigniting the economy. There are nearly two job openings per STEM-educated person nationally [4]
- Since FY 2010 federal research and development funding in real dollars has decreased by 10% [3]

The Benefits of Social, Behavioral, Economic, and Political Science
- The social sciences are crucial to solving many of our nation’s most pressing issues including understanding disease spread, disaster preparedness, and efficient use of resources [5]
- Social science and social network analysis have been crucial in ensuring national security and understanding terrorist networks [6][7]
- Social science research interventions can reduce repeat crime offenses by up to 40% [6]
- The State Department, Homeland Security, Defense Department, and Department of Energy all rely on the work of social scientists [5]

Funding for the Javits Fellowship and the Arts, Humanities, and Social Sciences
- In 2012, the Javits Fellowship program -- the only federal fellowship for students in the arts and humanities -- was consolidated into the Graduate Assistance in Areas of National Need (GAANN) program, reducing funding by 24% [8]
- The average time to degree for Javits fellowship students is less than their peers [8]

Open Access to Federally Funded Research

Increasing Innovation and Improving Education

We urge you to support and co-sponsor:

S. 350 - Fair Access to Science and Technology Research Act (FASTR) [bipartisan]
H.R. 708 - Fair Access to Science and Technology Research Act (FASTR) [bipartisan]

OPEN ACCESS

A Win for American Students, Taxpayers and Small Businesses

- **Small Business**: Removes the cost barrier that prevents small businesses from incorporating the latest research into their innovation
- **Students**: Provides access to cutting-edge research and reduces the cost burden for continuing education
- **Citizens**: Maximizes taxpayers' return on investment in publicly funded research and provides every taxpayer with access to research they have paid for
- **Accountable Government**: Allows transparent review of how federal dollars are used

700,000
users access PubMed every weekday [1]

57%
of PubMed users are from the general public and industry [1]

Proven Track Record of Success:
The NIH Public Access Program

The NIH public access policy currently requires peer-reviewed papers developed from NIH-funded projects to be submitted to NIH's public PubMed Central (PMC) database within one year after publication [1].

Every weekday, more than 700,000 users access PMC. The NIH estimates that only 25% of these users are from universities, 40% are from the general public, and 17% are from industry [1].

Support from Publishers

At least 50 major publishers, including the Nature Publishing Group and the American Institute of Physics, have pledged to support access models that maximize "dissemination of and access to the content" they publish [3].

Growth in the medical journal market -- the one most affected by the NIH policy -- is forecast to be 6.3% in 2014 [3].
Improving Education Resources

Support Affordable Textbooks

We urge you to support and co-sponsor:

H.R. 3538 - Affordable College Textbook Act
S. 1704 - Affordable College Textbook Act

Open Educational Resources (OER) are Fiscally Responsible

- The rising cost of college textbooks places an unnecessary burden on all students. The Government Accountability Office (GAO) found that college textbook prices increased 82% between 2002 and 2012 [4].
- Considering recent technological advancements, textbook prices should be decreasing, not increasing.
- Open Educational Resources (OER) are digital textbooks and other materials licensed for free.
- Expanding the creation and use of OER can reduce the burden of textbook costs and make higher education more affordable.
