- x. Question: How do you choose who goes to Wakonse?
- xi. Answer: GPSS decides who goes. A committee is formed for assigning.
- b. Dr. Warren Madden – Senior Vice President for Business and Finance
 - i. The reason for Dr. Maddens visit was to primarily discuss the unfortunate incident, firing on campus on November 4, 2014 and review of policies and procedures. To know more from graduate student perspectives about what went on and what can be done. The university collected lot of information about the unfortunate incident and the event. The university administration is looking at this can be incorporated in the broader issues in policy
 - ii. In a nutshell about the incident, Ames police were informed of an individual who stole a truck. The police followed him from Beach Avenue to Central campus area. The chase activity lasted for 4 minutes till the truck entered the central area on campus near the MacKay Hall. Concerns were raised about communication/alerting everybody on campus. Students have different systems that they can choose from for receiving alerts - text messages, email, voice messages. Students have to elect as to which method. Messages were sent and a lot depended on what technology a student opted. Intent of the alert system is to inform direct information as quickly as possible.
 - iii. We would like to know suggestions for improvement of communication. November 4th event was over within 4 minutes. There have been concerns that information was not sent to students. One of the university's challenge is to provide accurate information – collecting information can take some time. On November 4th when the unfortunate incident happened most students were in class. The university aims to improve our communication technologies. Sirens helped students. The university is currently working on improving on providing information quickly. We are exploring as to how we could use social media to get the word out. We can try and provide more information
 - iv. In other incident, there was a chemical spill at the research park – fumes were coming out. Questions were raised about how it would affect CVM. KCCI had a live camera, fire trucks were responding. Different questions need to be answered: Can we provide accurate information quickly? Can we do a better job at training people at what to do in emergency situations? Can we improve technology? The university is reassessing all

circumstances at how to communicate and how people make decisions. Google made software change and hence there was a delay in sending the message for November 5 event. We are encouraging training program and we want to assure that ISU is a safe campus.

- v. Question: Could there be any other measures than resulting in killing the person?
- vi. Answer: The county attorney concluded what the officer did appropriately.
- vii. Question: Do you know the Cyride dispatcher to be notified?
- viii. Answer: Cyride dispatchers were on the alert system, must have got the messages. Not sure if they got the message or not.
- ix. Comment: ISU to explore speech communication

 - vi. Question: Will there be option for driving and dining?

- grade point average and is equivalent to an F in a regularly graded (A---F) course.
2. Current Policy: F – Not satisfactorily completed, not allowed on the POS, but is included in the GPA. Typically must be repeated; only with extenuating circumstances can a student graduate with an F or NP on the permanent record, regardless of whether the course is used on the POS. The Dean of the Graduate College may consider requests from POS committees to allow graduation with an F on the permanent record only if the course is not on the POS, the course is unrelated to the student's scholarly discipline and thesis/dissertation topic, and the cumulative GPA is 3.0 or higher. An F mark in a course taken S--- F is counted in the grade point average and is equivalent to an F in a regularly graded (A---F) course.

IOWA STATE UNIVERSITY

Graduate & Professional Student Senate

- vii. PAG Chair Diddi – Comes from office expenses
- viii. VOTE:
 - 1. YES : 42
 - 2. NO : 10
 - 3. ABSTAIN : 6
 - 4. PASSED
- b. Senate Resolution S14-02 Preservation of the Wakonse Graduate and Professional Student Fellowship
 - i. Read by Senator Zenko
 - ii. Senator Lois – GPSS has PAGs, Wakonse gets \$700 of other graduate students money.
 - iii. Supporters of the bill need to identify why Wakonse deserves 5x as much money as PAGs.
 - iv. Wakonse is a special carve out for something that should be funded through PAGs.
 - v. Wakonse has its benefits, but the primary purpose is for one person to add to resume and point it out to potential employers on other student's dime.
 - vi. Senator Rakitan: Do departments contribute to this beyond what GPSS contributes?
 - vii. Senator Pritchard: No
 - viii. Senator Helmich: Directly falls under the realm of professional advancement and should be spent as such.
 - ix. President Prisacari: Wakonse different from standard conference, for those interested in teaching, does not fall under the realm of PAGs.
 - x. Vice President Tlach: Does this fall under PAG jurisdiction?
 - xi. PAG Chair Diddi: Yes, but we have been funding Wakonse independently since 1999, would like to
 - xii. Senator Zenko: One of the differences between Wakonse and PAGs, PAGs for individual growth and development while wakonse benefits everyone, there is a fundamental difference in the benefits derived from wakonse.
 - xiii. Senator Herschberger: Conference anyone can go to, competitive, PAG committee was discussing increasing dollar total?
 - xiv. Senator Helmich: Wakonse we want to specially allot funding for people to become better teachers vs. allotting funding for people who want to advance in other fields.
 - xv. Senator Anderson: Not necessarily a personal benefit due to nature of application (requires one year remaining in your education) so students of Wakonse attendee benefit as well.
 - xvi. Senator Ramezani: Better to have this money coming out of PAGs

IOWA STATE UNIVERSITY

Graduate & Professional Student Senate

- xvii. Senator Pritchard – philosophical decision. Think of it as an opportunity cost. If we decide not to invest in the bill we decide not to invest in the teachers of tomorrow.
 - xxviii. Senator Hollis: PAG and Wakonse both serve the public good of the university.
 - xix. Senator Helmich: PAGs also benefit the university as a whole due to exposure for the university through presentation at conferences.
 - xx. Senator Santos: Too easy to get funding for PAGs, first come first serve. Wants to know how competitive Wakonse is, in its current state it is not competitive. Perhaps in funding Wakonse we're sending our most competitive students for development.
 - xxi. Senator Rakitan: We can't overlook that there is positive external benefit. We need a measure of candidate willingness to pay to go to this conference. Want to see good researchers who can also teach coming out of Iowa State. As a way to promote Iowa State, this has its benefits, but as to whether or not to fully fund those students warrants discussion.
 - xxii. PAG Chair Diddi: GPSS is more than about funding PAGs,
 - xxiii. President Prisacari: Don't compare which brings more benefits to Iowa State overall. PAG is more research oriented, Wakonse is more teaching focused. Wakonse brings a lot back to campus, attendees provide sessions for TAs to help develop their teaching skills. CELT known outside the university. CELT cannot operate without student input, students going out and bringing outside knowledge and information back to ISU.
 - xxiv. VOTE:
 - 1. YES : 33
 - 2. NO : 20
 - 3. ABSTAIN : 5
 - 4. PASSED
- c. Senate Resolution S14-03 Proposal for a Career Fair for Graduate and Professional Students
- i. Read by Senator Singh
 - ii. CIO Mukherjee: Negative response to current Career fair geared towards undergraduates. Graduate career fairs common across multiple universities. This is not something novel and something that should be implemented to improve the graduate experience at ISU.
 - iii. Senator Singh: listed examples of schools with career fairs.
 - 1. University of California, Berkley
 - 2. Purdue University
 - 3. North Carolina State University
 - 4. Stanford University
 - 5. University of California, San Diego
 - 6. University of Kansas

IOWA STATE UNIVERSITY

Graduate & Professional Student Senate

- iv. Senator Singh: Proposes friendly amendment -- “Sponsored by university Provost Office”
- v. Senator Rakitan: Has anyone estimated the efficacy of such career fairs at other universities?
- vi. CIO Mukherjee: We do not have such information – but if happening repeatedly at other universities It must be having an effect.
- vii. Senator Rakitan: How long have these fairs been around?
- viii. Senator Singh: No information
- ix. Senator Lawana – friendly suggestion, who would be interested in holding a graduate career fair?
 - x. Show of hands – majority
- xi. Vice President Tlach: we can now tell grad college that students want this
- xii. Senator Anderson, C.: Student services building has career counseling. Want me to ask them about career fair, its feasibility?
- xiii. Senator Magtoto: will this require funding requirement from GPSS?
- xiv. CIO Mukherjee: No. Generally career fairs funded by provost office. This resolution is to have student body back up to say students want this.
- xv. Senator Ramezani: Purdue Universities organize this for over 7 years.
- xvi. President Prisacari: Ask constituents how they currently seek employment? Conferences, other events? What is the gap that we can fill with this event?
- xvii. Senator Santos: Way to think about how to do this career fair? Not just companies, university representatives wanted as well.
- xviii. CIO Mukherjee: that should be included
- xix. Senator Anderson, A: motion to table it till next month
- xx. CIO Mukherjee: resolution, can’t be tabled?
- xxi. Vice President Tlach: Postpone the vote
- xxii. Senator Anderson, A: move to next meeting, gather more data, then hold the vote
- xxiii. Vice President Tlach: motion on the floor to postpone vote till next meeting, who seconds?
- xxiv. No one seconded the motion.
