2020-2021 Term

*2nd Session*

### 2020-2-030 SR

In the Iowa State University Student Government Senate  
September 2nd, 2020

Senator Zastrow (for himself, Senator Weathers, and Speaker Ludwig) introduced the following bill,  
which was read once and referred to the Student Initiative Committee.

#### A RESOLUTION

**TITLE:** Support of Iowa State Action to Mitigate COVID-19 Cases on Campus

**WHEREAS:** Iowa State University has a responsibility to care for its students, staff, faculty, and members of the community in which it exists, and

**WHEREAS:** A university environment is fundamentally difficult to manage cases in. Despite the best possible efforts of any administration, those who spread the virus may do so before they are even aware that they have been exposed. When one individual goes to multiple classes, interacts with roommates, and eats meals in a dining hall, it is nearly impossible to accurately and exhaustively trace their contacts, who can further spread the virus, and

**WHEREAS:** The University Administration alone has the power to significantly reduce contact between individuals in the city, with the fastest growth of cases nationally, and

**WHEREAS:** The non-educational costs alone of a COVID-19 outbreak should be enough to prompt immediate, comprehensive action from all parties and individuals who have the ability to make any change in University policy, and be it therefore,

**RESOLVED:** That the Student Government Senate of Iowa State, representing all students and their interests, recommends the following actions:

**RESOLVED:** That the University administration encourage staff to reevaluate the absolute necessity of in-person instruction on a case-by-case basis. For any classes which do not already have an online alternative prepared, University resources should prioritize courses with the highest number of students first, and be it further

**RESOLVED:** That the University and Department of Residence work together to minimize financial penalties, including breaking fees for housing contracts and meal plans, especially for those living in shared spaces, to students who wish to move out of university housing for reasons of personal health.

**RESOLVED:** That Iowa State University, in the event of a significant COVID-19 outbreak in the Ames community, shares any resources it can to help the city. This should include law enforcement, health care, testing capacity, and facilities, and be it further
