 - d. Campus Climate Committee: Dean Graves wants the GPSS Senate to determine the GPSS Senator or executive member to serve for FY19.
 - e. Vice President: how will you ensure students are not turned down due to space and how would you ensure with the one week deadline that students are not accepted or turn down when they are exceptional or not suitable for the program?
 - f. WG: This is up to the colleges discretion. They may decide to extend it out for a year. We are testing this with five colleges to make sure this model works. Decisions are tentative offers at the stage preceding the official acceptance by the program. Reason we established this is to make sure we are not ignoring students and give them the feedback promptly so we don't lose qualified students.

Dr. Harmon was unaware there were only 2 childcare facilities and the costs/affordability associated with these facilities. We also spoke about the potential of the university offering grants or assistance to increase the affordability of the care facilities. I will get back to you about the health insurance plans. They are unaware that these insurance plans for spouses/dependents are not affordable and which services are afford and useful.
