- v. Report of the University Relations and Legislative Affairs Chair
- vi. Report of the Graduate and Professional Student Research Conference Chair
 - a. Announcement: Dr. David Buss - TEDex speaker and psychologist - “Human Mating Behavior” will be the Keynote at GPSRC
 - b. **Senator 1**: How will the networking event exactly work and how will students know whom to approach - the odds of meeting someone from chemistry that is involved in the interest of the student doesn’t seem realistic. Is there a way we could get the contact information, otherwise I don’t see how students would benefit from it.
 - c. **GPSRC**: College career directors want to know who you want to see. So please send me an email with names so they can focus on who to invite. It doesn’t mean they will come. To answer your question, we could potentially give a list so that you can identify the attendees easier.
 - d. **Senator 2**: Suggestions - I am coordinating a similar events for National Associations – serve the broad or discipline based. Give each person a table to facilitate a more organized networking opportunity/discussion.
- vii. Report of the Professional Advancement Grant Chair
 - a. Announcement: There were 8 applications and 4 went off to graduate college for the final round
 - b. **Senator 1**: New PAG system - when students indicate the names of GPSS senators, we also get the emails indicating the student has submitted a PAG application. Is there concern for privacy of the student’s information?
 - c. **PAG**: They must be entering in the wrong contact information. The only individuals who are able to see the application include the PAG chair and department Contact (staff member who processes the information).
 - d. **Senator 2**: Who are the four final nominees for the MEW award?
 - e. **PAG**: Kevin Schalinkse (Food Science & Human Nutrition), Vikram Dalal (Electrical & Computer Engineering), Denise Crawford (Education), and Young Lee (Chemistry)
 - f. **Senator 2**: For the PAG departmental contact – and the updates with the improved service delivery, I am wondering whether we should keep the contact the same or find the correct individual?
 - g. **PAG**: I would reach out to someone to identify if anything has changed, but it is important to identify the right contact, otherwise it could delay and forfeit your PAG grant application. My suggestion is to contact your DOGE to see if there have been any updates.
