Some have received emails from department heads/chairs that they will have their assistantship will not be extended after January 29th, or they will lose their assistantship. It sounds like graduate students are concerned/stressed about this, and I am not sure who would be the point of contact in order to*

IOWA STATE UNIVERSITY

Graduate & Professional Student Senate

- a. The deadline for PAG is final, we can't unfortunately do anything about it.*
- v. I may have missed this but could you please clarify how the stipends for graduate students without teaching appointments for winter session will work? Will they have to be RAs for 8 weeks.*
 - a. It depends on the date of the LOI. If you have an appointment for both Fall and Spring, and then in addition you have an RA for winter, then there are guidelines for extra stipends, but if you are doing something in winter session that would have been normally done in Fall or Spring, it's a different situation,*
